MODEL 4255	Long Panel, 9/16" Insulated

- Door sections are formed from heavy, 25-gauge galvanized draw quality steel
- Section joints are roll-formed into a tongue-and-groove design which produces a superior weather seal
- Inside stiles are made of galvanized steel and stile holes are "dimpled" for increased holding power
- Bottom weather seal utilizes an aluminum retainer and extruded virgin vinyl
- Extra heavy paint system² in your choice of white, almond, sandstone or brown
- Optional Appearance Package³ upgrade available
- Hinges are stamped from galvanized steel in a "wide body" pattern for greater stability and longer life
- **Models 2251/4251** include 1-3/8" polystyrene insulation with a vinyl back cover
- **Models 2255/4255** include 9/16" polystyrene insulation with a vinyl back cover
- **Models 2251/4251** DASMA TDS-163 Calculated R-value¹: 6.62
- **Models 2255/4255** DASMA TDS-163 Calculated R-value¹: 3.21

For additional information, please see numbered footnotes on backside.

Built for both longevity and value, this door recreates the elegant look of wood with a deeply-embossed, distinctive panel design. It has the appearance of our top-of-the-line models, yet remains economical and efficient - making it one of our most popular models. Available in four designer colors, these durable steel doors complement the look of almost any home.

FEATURES

DURABLE. ECONOMICAL.

C.H.I. Overhead Doors are manufactured in Arthur, Illinois, USA.

All information presented is based on the specifications and features available at the time of printing and is subject to change without notice.

DOOR CONSTRUCTION

Each model utilizes a 25 gauge exterior steel skin. Chosen for their weather resistant features, models (1) 2251/4251 utilize a 1-3/8" thick polystyrene insulation, while models (2) 2255/4255 employ a 9/16" thick polystyrene insulation with vinyl back covers.

2251/4251R value¹ - 6.62
 2255/4255R value¹ - 3.21

WINDBREAKER SERIES

Wind can be unpredictable and destructive, which is why we developed our super-resilient Windbreaker Series. Windchamber-tested for increased wind-load resistance, this extra-sturdy series provides enhanced defense against the elements.
